Abstract

© 2015, Pleiades Publishing, Ltd. New bryozoan species, *Nikiforovella tobolensis* sp. nov., *Primorella variata* sp. nov., and *Sulcoretopora regularis* sp. nov. are described from the Upper Tournaisian of the Kurgan Region (southwestern West Siberian Plain). These taxa belong to genera, which are widespread in the Lower Carboniferous of Eurasia and North America.
